

eduroam on IOS devices

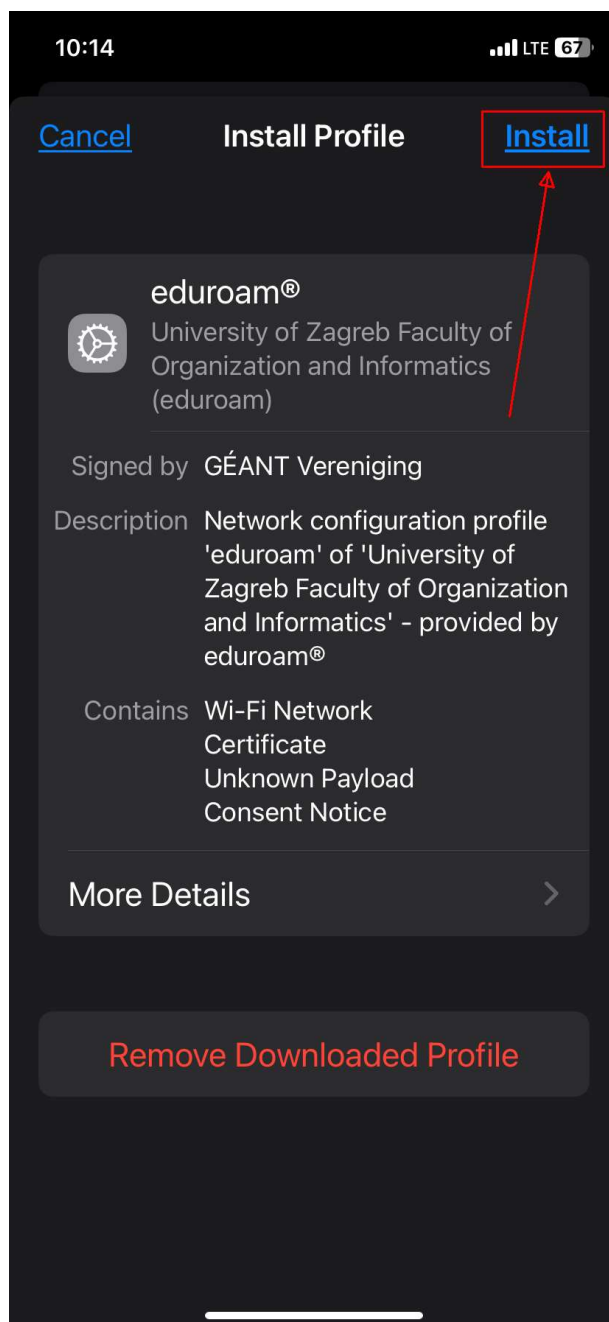

1. Safari browser on your IOS device --> go to URL: <https://cat.eduroam.org/?idp=8404> and click „eduroam“ :

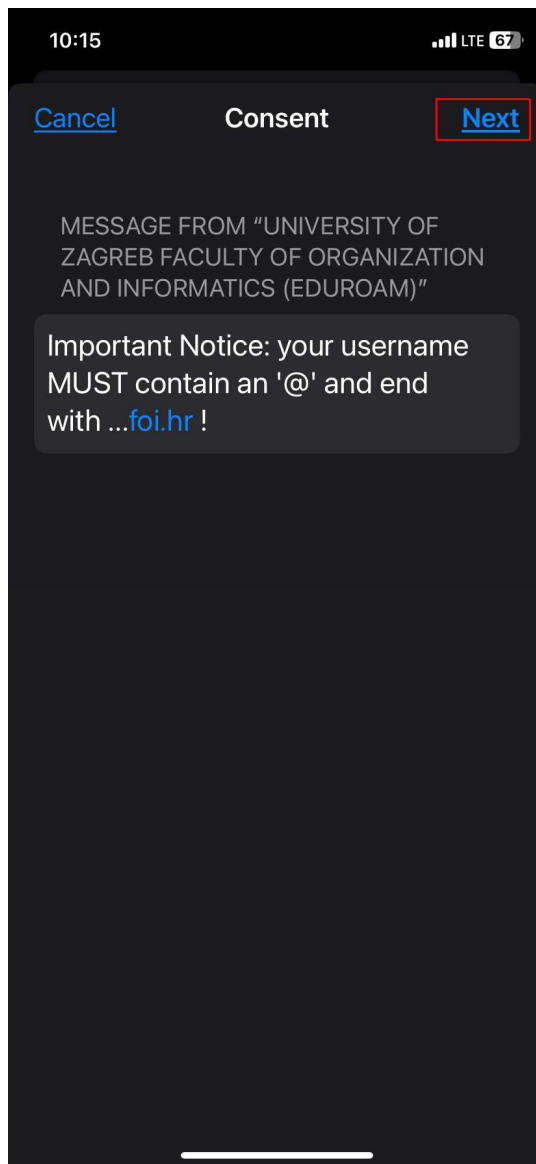

3. Download eduroam configuration file by clicking „Allow“ :

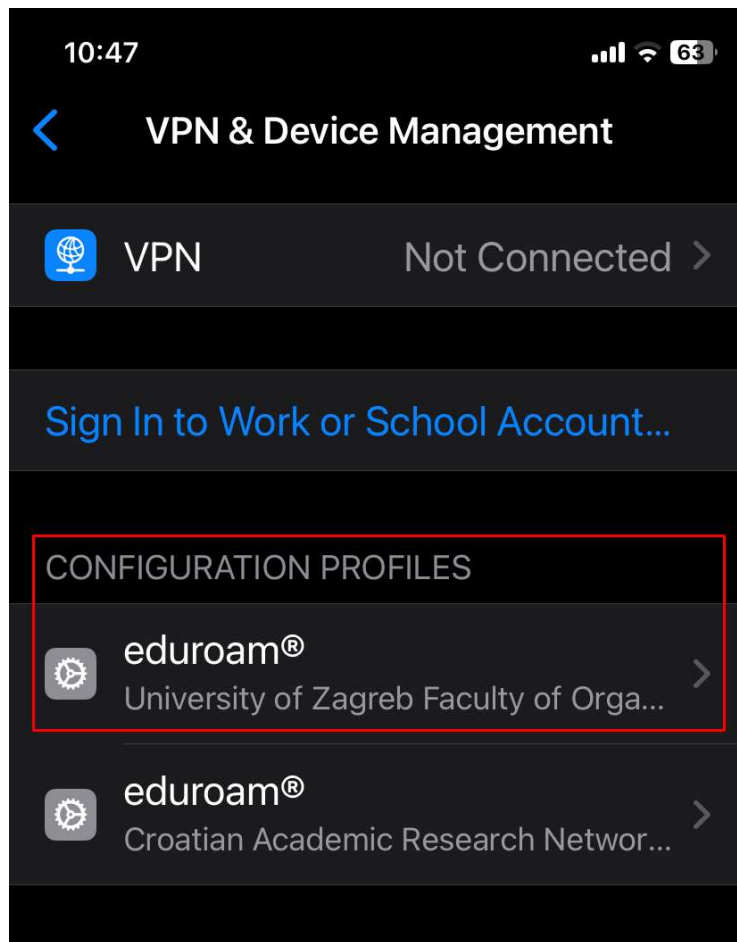

4. Click „Install“ :

5. Next ..
6. Enter your FOI AAI user account credentials in form of [username@foi.hr](#) and corresponding password in next steps. When prompted, enter your device password to install it to your IOS device.
7. Once finished, your configuration file should be displayed now and ready to use. Check its correct installation & import by inspecting :

Settings → General → VPN & Device management → eduroam University of Zagreb Faculty of Organisation

8. Enable your wifi, browse for installed „eduroam“ network and simply choose it.
